Yellow Brick House Public Education Workshops For Elementary School Students

Recommended audience: Grades 6, 7 & 8

Yellow Brick House's Public Education program is now offering a hybrid option!

Exploring Relationships

An overview of what is healthy and what is not in all relationships (friends, peers, parents, teachers, dating). We discuss power and control, explore the unhealthy ways people may treat others, and examine real life examples of unhealthy friendship situations.

Students learn to understand how bullying and abuse can play out in their daily lives, how to recognize unhealthy situations, how to be an **up-stander** rather than a bystander, and how to effectively communicate and manage their emotions.

The Gift of Self Esteem

Through a discussion about stereotypes, and more specifically gender stereotypes, we will discover how gender roles portrayed in the media affect our self-esteem as well as our relationships with others. We discuss the effects of low self-esteem, and we examine ways to increase/practice positive self-esteem. Finally, we discuss the importance of boundaries and establishing "deal breakers" within our relationships with others – pieces that become easier to do and commit to when one has a strong(er) sense of self and confidence.

PLEASE NOTE:
